

# HYBRID SALES KICK-OFF EVENT SERVICES

Whether your goal is to inform or educate, motivate or reward, we're here to manage every component for your successful sales kick-off event.

It is currently more important than ever to boost sales, but with travel and event restrictions continuing your event may look a little different, but we have many solutions to ensure that it's still effective and engaging.

## HYBRID & VIRTUAL SOLUTIONS

It's now more critical than ever for event planners to integrate hybrid solutions in their events to ensure they can continue for those not able to attend in-person. Specialising in virtual and hybrid event solutions such as live streaming, audience polling, video conferencing, webcasting, event apps and more, our virtual event solutions provide event planners with considerable benefits to help achieve ROI on their events. We will work with you to understand the options available to you and help find the right solution for your event needs.

## ADDITIONAL SERVICES

We also offer a fully equipped production studio for a professional, TV quality result.

Plus our Immersive XR Stage enables you to create dynamic, live productions using the latest technologies and extended reality.

## LIVE STREAMING PLATFORM

Encore's latest hybrid innovation is Chime Live. The solution is specifically designed to replicate the live-event for those not able to attend. In addition to live streaming of presentations, it enables in-room and online attendees to engage with the same activities, access resources, chat live, engage in Q&A and more.

- > **Webcasting** - Reaching a global audience couldn't be easier thanks to webcasting. Broadcast your sales kick off in its full entirety to spread the word!
- > **Live Polling** - Our unique live polling platform allows you to interact with your guests, gather feedback, and collate data for the end of your event. We understand that your guests matter, and they deserve a platform.
- > **Social Media** - Amplify your content and start a global conversation with our event social media platform, Event Feed. It pushes all of the social content containing your event hashtag to screens around the venue, letting your guest's voices be heard.
- > **Recording** - Where accessibility is the keyword; stream and record your event so it can be accessed by anyone, anywhere and in the future. It's also useful if you have key presenters in different time zones.
